

### **CCS2020 Call for Satellite Symposia:**

We would like to bring to your attention a Call for Satellite Symposia for the International Conference on Complex Systems, to be held online, from 7 to 12 Dec. 2020.

Following the successful tradition of previous venues, CCS2020 will host a number of stimulating Satellite Symposia, to complement the main Conference. The satellite events are shorter (one-day or half-day) meetings with a focus on a specialized topic, and will take place on Wednesday, December 9th and Thursday, December 10th. All subjects that are of interest to the Complex Systems Society are welcome.

### **How to Submit Proposals:**

We invite you to submit a proposal for a satellite symposium including **Title, Topic** (brief summary of **less than 1000 words**) and **Format** (number of speakers, invited vs. contributed, number of participants, length, preliminary program), and **a preliminary list of speakers** (also indicating whether they have been contacted and/or whether they have accepted).

Please make sure to mention if the proposed satellite is part of the dissemination activity of a research project, and as such if there is some available funding to partially cover some costs.

**Submit Proposals (single PDF File) by email to: [ccs2020conf@gmail.com](mailto:ccs2020conf@gmail.com)**

### **Important Dates:**

- Deadline for Proposals: **September 20, 2020** (23:59 CET)
- Notification of Acceptance: **October 1, 2020**

### **Information Concerning the Satellite Meetings:**

- Dates of the Satellite Symposia: Wednesday, December 9th and Thursday, December 10th
- Location: online
- Satellite participants will have to register following the procedure described in the conference web site: <http://ccs2020.web.auth.gr/registration>.

Participants who only wish to participate to the satellite and do not wish to attend the main conference will have the option to register only for a single day.

All satellite symposia will be listed in the CCS2020 Booklet as well as linked and advertised on the conference Website.

- A subdomain on the Website of CCS2020 will be available upon request.
- Selection of Satellite Meeting Proposals will be performed by the Scientific Committee of CCS2020. In order to optimize the offer of Satellite Symposia in terms of scientific topics, visibility and interactions, the Scientific Committee will reserve the option to propose the merging of selected proposals focusing on similar topics.
- A rule of no-repetition of the same talk across different satellites and main conference will be enforced.
- One free registration will be awarded to each satellite meeting. The satellite organizers can use it in any way they prefer (to use it for themselves, split it, or award it to an invited speaker).

### **Additional Questions:**

If you have any doubt or additional questions, please, do not hesitate to contact us via email at: [ccs2020conf@gmail.com](mailto:ccs2020conf@gmail.com)
